* If this Notice is to be used because election judges will be visiting a facility due to the early voting clerk deciding that ballots will be delivered to the facility even before the early voting clerk has received 5 or more applications for a ballot by mail that request the ballots be sent to the facility, then the notice must be posted no later than 48 hours before voting is to be conducted at the facility. The early voting clerk must provide the names of election judges, if known, when the notice is being posted for that purpose.
